

# Estate Valuations & Pricing Systems, Inc.

## Voluntary Product Accessibility Template (VPAT)

### for EVP Office

**Product Name:** EVP Office (consisting of the Windows applications EstateVal, GiftVal, CostBasis, and CapWatch)  
**Product Version Number:** 9.X.X  
**Vendor Company Name:** Estate Valuations & Pricing Systems, Inc. (EVP Systems)  
**Vendor Contact Name:** Support Department  
**Vendor Contact Telephone:** (818) 313-6300

## Summary Table

Criteria	Level of Support & Supporting Features	Remarks and explanations
Section 1194.21 Software Applications and Operating Systems	Supported.	
Section 1194.22 Web-based Internet Information and Applications	N/A	The product is not Web-based.
Section 1194.23 Telecommunications Products	N/A	The product is not a telecommunications product.

<b>Section 1194.24 Video and Multi-media Products</b>	N/A	The product is not a video or multimedia product.
<b>Section 1194.25 Self-Contained, Closed Products</b>	N/A	The product is not a self-contained, closed product.
<b>Section 1194.26 Desktop and Portable Computers</b>	N/A	The product is not a desktop or portable computer.
<b>Section 1194.31 Functional Performance Criteria</b>	Supported.	
<b>Section 1194.41 Information, Documentation and Support</b>	Supported.	

## Section 1194.21 Software Applications and Operating Systems - Detail

<b>Criteria</b>	<b>Level of Support &amp; Supporting Features</b>	<b>Remarks and explanations</b>
<b>(a) When software is designed to run on a system that has a keyboard, product functions shall be executable from a keyboard where the function itself or the result of performing a function can be discerned textually.</b>	Supported.	Product supports all standard Microsoft Windows keyboard navigation.
<b>(b) Applications shall not disrupt or disable activated features of other products that are identified as accessibility features, where those features are developed and documented according to industry standards.</b>	Supported.	The product does not interfere with keyboard accessibility features built into Windows.

<p>Applications also shall not disrupt or disable activated features of any operating system that are identified as accessibility features where the application programming interface for those accessibility features has been documented by the manufacturer of the operating system and is available to the product developer.</p>		
<p>(c) A well-defined on-screen indication of the current focus shall be provided that moves among interactive interface elements as the input focus changes. The focus shall be programmatically exposed so that Assistive Technology can track focus and focus changes.</p>	<p>Supported.</p>	<p>The product supports the standard Windows focus highlight.</p>
<p>(d) Sufficient information about a user interface element including the identity, operation and state of the element shall be available to Assistive Technology. When an image represents a program element, the information conveyed by the image must also be available in text.</p>	<p>Supported.</p>	<p>The product adheres to the Microsoft accessibility guidelines for Windows applications, <a href="https://docs.microsoft.com/en-us/windows/apps/design/accessibility/accessibility-overview">https://docs.microsoft.com/en-us/windows/apps/design/accessibility/accessibility-overview</a>.</p>
<p>(e) When bitmap images are used to identify controls, status indicators, or other programmatic elements, the meaning assigned to those images shall be consistent throughout an application's performance.</p>	<p>Supported.</p>	
<p>(f) Textual information shall be provided through operating system functions for displaying text. The minimum information that shall be made available is text content, text input caret location, and text attributes.</p>	<p>Supported.</p>	

<p><b>(g) Applications shall not override user selected contrast and color selections and other individual display attributes.</b></p>	<p>Supported.</p>	
<p><b>(h) When animation is displayed, the information shall be displayable in at least one non-animated presentation mode at the option of the user.</b></p>	<p>N/A</p>	<p>The product does not use animation.</p>
<p><b>(i) Color coding shall not be used as the only means of conveying information, indicating an action, prompting a response, or distinguishing a visual element.</b></p>	<p>Supported.</p>	<p>All entry fields that use color to indicate a potential issue also have tool-tip pop-ups that more explicitly identify the problem.</p>
<p><b>(j) When a product permits a user to adjust color and contrast settings, a variety of color selections capable of producing a range of contrast levels shall be provided.</b></p>	<p>Supported.</p>	<p>The product adheres to all Windows color settings, including the high-contrast option.</p>
<p><b>(k) Software shall not use flashing or blinking text, objects, or other elements having a flash or blink frequency greater than 2 Hz and lower than 55 Hz.</b></p>	<p>Supported.</p>	
<p><b>(l) When electronic forms are used, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.</b></p>	<p>Supported.</p>	<p>The product adheres to the Microsoft accessibility guidelines for Windows applications, including form fields. See remark for 1194.21(d).</p>

## Section 1194.31 Functional Performance Criteria - Detail

Criteria	Level of Support & Supporting Features	Remarks and explanations
<p><b>(a) At least one mode of operation and information retrieval that does not require user vision shall be provided, or support for Assistive Technology used by people who are blind or visually impaired shall be provided.</b></p>	<p>Supported.</p>	<p>The product supports all Windows-based assistive technology, including those built into the operating system (Narrator, Magnifier, resolution adjustments, etc.) and any third-party assistive technologies compatible with Windows standards.</p>
<p><b>(b) At least one mode of operation and information retrieval that does not require visual acuity greater than 20/70 shall be provided in audio and enlarged print output working together or independently, or support for Assistive Technology used by people who are visually impaired shall be provided.</b></p>	<p>Supported.</p>	<p>The product supports all Windows-based assistive technology, including those built into the operating system (Narrator, Magnifier, resolution adjustments, etc.) and any third-party assistive technologies compatible with Windows standards.</p>

<p>(c) At least one mode of operation and information retrieval that does not require user hearing shall be provided, or support for Assistive Technology used by people who are deaf or hard of hearing shall be provided</p>	<p>N/A</p>	<p>The product does not use audio for any functional purpose.</p>
<p>(d) Where audio information is important for the use of a product, at least one mode of operation and information retrieval shall be provided in an enhanced auditory fashion, or support for assistive hearing devices shall be provided.</p>	<p>N/A</p>	<p>The product does not use audio for any functional purpose.</p>
<p>(e) At least one mode of operation and information retrieval that does not require user speech shall be provided, or support for Assistive Technology used by people with disabilities shall be provided.</p>	<p>N/A</p>	<p>The product does not require user speech.</p>
<p>(f) At least one mode of operation and information retrieval that does not require fine motor control or simultaneous actions and that is operable with limited reach and strength shall be provided.</p>	<p>Supported.</p>	<p>The product does not require fine motor control or simultaneous action, and supports all Windows-compatible input devices and input-sensitivity settings.</p>

## Section 1194.41 Information, Documentation and Support - Detail

Criteria	Level of Support & Supporting Features	Remarks and explanations
----------	--	--------------------------

<p><b>(a) Product support documentation provided to end-users shall be made available in alternate formats upon request, at no additional charge</b></p>	<p>Support.</p>	<p>The product does not ship with documentation, but the company website has extensive tutorials. These can be read on-line or converted into any desired format, free of charge.</p>
<p><b>(b) End-users shall have access to a description of the accessibility and compatibility features of products in alternate formats or alternate methods upon request, at no additional charge.</b></p>	<p>N/A</p>	<p>All the products accessibility and compatibility features are provided through standard Windows or third-party functionality. There are no product-specific features to document.</p>
<p><b>(c) Support services for products shall accommodate the communication needs of end-users with disabilities.</b></p>	<p>Supported.</p>	<p>EVP Systems provides support via e-mail, phone call, or video conference. Additional methods can be added as users with disabilities require.</p>
