

About EVP Everywhere

Every feature and advantage of EstateVal, built right into your trust accounting system

EVP Everywhere is EstateVal, but integrated directly into the tax, trust, and accounting systems you already use. There's no additional software to install, and there are no imports/exports to manage.

TEdec Fiduciary Accounting Software

EVP Everywhere is integrated directly into TEdec. It's the easiest way there is to get EstateVal's famously accurate historical security pricing.

TEdec

Gillett Estate Management Suite (GEMS)

GEMS has added EVP Everywhere pricing. You're able to get the most accurate historical pricing, with the click of a button.

EstateWorks Settlement and Planning Solutions

EstateWorks has an EVP Everywhere pricing option, and pricing a security right inside the program is incredibly simple.

EstateWorks™
Settlement and Planning Solutions

Lackner 6-in-1

Scheduled for inclusion in the next version of Lacker 6-in-1, EVP Everywhere will make pricing a portfolio's holdings fast and easy.

LACKNER GROUP
Estate & Trust Software

In-House Systems

Bank trust departments and brokerage houses have started using EVP Everywhere to automatically price client portfolios as part of their standard process, with no human involvement required.
